

10MWh Power Cabinet for France Battery Swapping Station

Our intelligent battery swapping cabinets feature advanced charging strategies that optimize battery performance while ensuring easy maintenance and real-time fault detection.

Our systems are specifically designed for battery platforms below 100V, making them ideal for electric motorcycles, freight tricycles, and low-speed multi-purpose vehicles.

The cabinet conducts a real-time monitoring of the battery's internal voltage, temperature, and other status information, identify the battery problems and send warning messages to the maintenance staff.
