

Discover 240V wind generators with CE certification, vertical & horizontal designs, 3-phase PMG, and 20-year lifespan for home or farm use.

Pikasola Wind Turbine Generator Kit 400W 12V with 5 Blade, with Charge Controller, Wind Power Generator for Marine, RV, Home, Windmill Generator Suit for Hybrid Solar Wind System

o Rated for real wind conditions: Produces up to 350 W of power at ~27 mph wind speeds, providing a reliable supplemental energy source in breezy environments. o Complete electrical system included: ...

The Geneforce Emergency Power System is a Battery-Based Indoor Generator that is rechargeable with solar panels and a wind turbine. The Geneforce Indoor Battery Generator is silent, portable and ...

With its 240 volts of power and 224cc engine, this generator is the perfect companion for emergency back-up. Simply plug your transfer switch into the NEMA 30A twist lock for electricity in times of ...

With no need for expensive batteries our 5kw On Grid Wind Turbine is a simple easy maintenance free power source that will save you money and drive down the cost of the Electricity bills you currently ...

With a rated wind speed of up to 12m/s and a wind turbine diameter of 2.63m, it consists of 3 blades made of aluminum with a height of up to 5m, and features an advanced magnetic levitation generator ...

Designed and manufactured by the world's leading household wind turbine and solar panel manufacturer, TESUP, operating in United States locally among other 34 countries. We ...

Upgrade your system with our high-performance 5KW Horizontal Wind Turbine Generator, 120V/220V/240V/380V, Hybrid-Ready with Solar Panels, CE Certified. Built for reliability, efficiency ...

*Blades using new art of precision injection molding, matched with optimized aerodynamic shape and structure, which enhance the wind energy utilization and annual output. *Body of casting aluminum ...
