

Our 50KW, 60KW, 100KWH, and 120KWH All-In-One ESS Commercial High Voltage Battery Storage System combines a LiFePO4 battery pack with a hybrid ...

Store abundant solar energy with our OPzS 48V battery pack! Store your surplus solar energy, reduce your bill, and ensure continuous power supply, even in case of an outage.

What are you looking for?

HyperPack is a modular EV battery designed to be simple, safe, and easy to install in almost any application. In various configurations, packs are engineered to fulfill energy storage needs all the way ...

HyperPack is a modular EV battery designed to be simple, safe, ...

Our battery products have the advantages of high energy density, ...

Designed to meet the needs of large-scale energy storage applications, the 576V containerized lithium iron phosphate battery pack provides a powerful, efficient and environmentally friendly solution for ...

In today's fast-evolving energy landscape, the 120kW lithium battery pack has emerged as a game-changer. Whether you're managing a solar farm, optimizing factory operations, or scaling EV ...

Enhance your energy storage with the DEYE GE-F120-4H2 120KWH Pack, known for its reliable performance and exceptional durability for your power system needs. Upgrade now for efficiency.

Our 50KW, 60KW, 100KWH, and 120KWH All-In-One ESS Commercial High Voltage Battery Storage System combines a LiFePO4 battery pack with a hybrid inverter system, smart BMS, MPPT, PCS, ...

Powerful 50KW/120KWh hybrid energy storage solution with integrated inverter, BMS & EMS. LFP batteries, redundancy design. Expandable up to 120KWh.

Our battery products have the advantages of high energy density, high power density, small volume, light weight, long service life, low self-discharge, flexible and varied shapes, safety performance and ...

The 120kWh battery uses advanced lithium iron phosphate (LFP) technology, combining high energy density with strong stability. The battery cabinet measures 1015 x 1300 x 2000mm, meeting standard ...
