

VEICHI, one of the leading solar water pumping inverter manufacturers, provides SI32, SI23, SI21 and SI30 high performance and eco-friendly automatic solar water pump controller at wholesale price.

Our solar water pump comes with a 6.6ft clear water pipe to make different water features and trickle that will make your garden look comfortable and inviting.

It converts the DC power generated by solar panels into AC power that can be used to drive the water pump, providing an efficient and sustainable solution for water pumping needs.

This guide highlights five inverter solutions that pair well with solar setups and water pumps, from off-grid kits to backup inverter systems. Each option supports pumping needs while ...

\*Efficient Power Generation: Equipped with a 30W solar panel, this pump guarantees stable and effective power production, supplying ample energy to meet the demands of the water pump ...

\*Efficient Power Generation: Equipped with a 30W solar panel, this pump guarantees stable and effective power production, supplying ample energy to meet the demands of the water ...

The 30W Solar Water Pump is a fantastic choice for adding life to your pond or garden without worrying about power costs. It's easy to set up, eco-friendly, and perfect for creating beautiful water features ...

Three-phase DC/AC 30 kW solar pump inverter, compatible with solar panels and asynchronous motors, advanced MPPT technology applied to the irrigation system. Performs normally under vibration ...

EXP series inverter offers high-power continuous output with advanced MPPT and grid-tie support for hybrid configurations. Built for demanding residential and commercial systems.

Three-phase DC/AC 30 kW solar pump inverter, compatible with solar panels ...
