

350kW inverter cabinet terminal for port use

Utility-Scale PV Inverter MAX 320-350K-X 320-350kW 6 MPPTs 800Vac About Growatt Solutions Products

Multi-mppt string inverters from Sungrow, sg350hx, are proven safe for 24h real-time AC and DC insulation monitoring and reach a high yield of 99% at a low cost.

Offering options of 12 MPPTs and 15 MPPTs, this series comes with a maximum string input current of 15/20A, thus supporting bifacial 182mm/210mm module access. The Anti-PID (Potential Induced ...

With our high current rated DC inputs, systems can realize full capacity as well of their PV modules. Our system supports ease of installation with MC4 connectors, while maintenance is streamlined with ...

The string inverter has been rigorously tested and inspected before ex-work, but accidental damage may occur during transportation, so please check the string inverter immediately after receiving it.

The CPS 350 kW three-phase string inverters are designed for large-scale ground mount applications. The units are high performance, advanced, and reliable inverters designed specifically for the North ...

High reliability · Cooling fan with IP68 protection level · Integrated string monitoring function · Standard connection terminal for quick installation

Follow the instructions in the enclosed documentation of the switch cabinet manufacturer to connect the two switch cabinets to one another. The assembly procedure is described there.
