

An example of such an investment is the newly commissioned Vilvoorde Battery Energy Storage System in Belgium, currently the largest of its kind in continental Europe.

Engie and Sungrow have commissioned the first 400 MWh phase of mainland Europe's largest battery energy storage system in Vilvoorde, Belgium, with full capacity due by end-2025.

Once delivered, the 200 MW/800 MWh Vilvoorde BESS project will occupy a 3.5-hectare site and feature 320 battery modules measuring 25 m x 4 m x 3 m. The battery park has a 15-year contract with...

French electric utility ENGIE SA has undertaken construction of a 200-MW/800-MWh battery energy storage system (BESS) at its Vilvoorde site on the outskirts of Brussels in Belgium.

Driving Belgium's Energy Transition ENGIE's battery systems are central to its flexibility strategy in Belgium. The company views large-scale storage as vital to integrating more renewable energy. Indeed, ...

Kallo, 14 May 2025 - NHOA Energy, the global provider of utility-scale energy storage systems, today celebrated with ENGIE the groundbreaking of a 400 MWh battery energy storage system (BESS) in Kallo, ...

"The project showcases how two leading players in the energy sector can work hand in hand--not only to deliver on technical requirements but also to address ESG priorities, health and safety, ...

Sungrow has commissioned the first 400MWh of ENGIE's 200MW/800MWh battery energy storage system (BESS) in Vilvoorde, Belgium -- the largest such facility in mainland Europe. The feat is a ...

In Vilvoorde, on the outskirts of Brussels, Belgium, mainland Europe's largest battery energy storage system has reached a major milestone.

It is the site of the largest permitted battery energy storage system (BESS) on the continent at 2.8GWh, one of the largest under construction at 800MWh, and two under-construction projects announced ...
