

The innovative project is already registered in the public register of strategic projects of the European Commission. The project "BG EXERON X-BESS" in the field of batteries and technologies ...

A Bulgarian project for manufacturing batteries for energy storage has been granted strategic status under the European Clean Technology Initiative, the Ministry of Economy and Industry...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, to provide ...

Commissioned, delivered, and installed in just 12 days by a five person crew, Sigenergy's innovative SigenStack system at Malko Tarnovo, Bulgaria, highlights how next-generation battery ...

The combined 200 MW battery storage portfolio is designed to be a cornerstone of Bulgaria's modernizing energy grid. Its primary function is to store excess electricity generated from ...

Sigenergy has deployed a 10 MW/20 MWh battery energy storage system (BESS) at a solar site in Malko Tarnovo, Bulgaria, using 240 kWh battery stacks typically found in residential ...

Bulgarian renewables developer Sunterra RE has partnered with Sungrow to deploy 1 GWh of battery energy storage systems (BESS) at three of its largest solar parks. The rollout is part ...

In April, it granted EUR 587 million to 82 battery storage projects. The pace of large photovoltaic projects in Bulgaria indicates that total capacity can reach 6 GW by the middle of next year.

Bulgaria is accelerating its energy transition and is shaping up to be one of the leading markets for energy storage systems in Europe, as more than 1.5 GWh of storage capacity is in ...
