

Desay Energy Storage Lithium Battery Project

Desay Battery launches another "first" project On the morning of 16th, August, the 300kW/645kWh energy storage station project, jointly built by Desay Battery and Hunan Xinshijie ...

The project consists of the headquarter, R& D center and production center for energy storage battery cell with capacity of 20GWh, to be completed in three phases.

In addition to battery cells, Desay Battery revealed modular energy storage systems equipped with scalable lithium modules available in 100Ah and 280Ah. Their 52S battery packs facilitate flexible ...

Desay Battery has solidified its position in domestic energy storage markets while achieving breakthroughs in overseas markets. Its solutions are now deployed across multiple ...

Desay Battery has taken part in SNEC 2025, showcasing its cutting-edge battery cell technology via a wide range of products, the line-up including high-performance lithium-ion cells ...

In addition to cell technology, Desay Battery unveiled its modular energy storage systems, which consist of scalable lithium modules at 100Ah and 280Ah, along with 52S battery packs...

At the exhibition, Desay Battery also highlighted several core products, including a high-performance lithium cell series (DLP-100, DLP-280, DLP-314), sodium-ion battery DSP-60, and a ...

Desay Battery continues to provide customized lithium battery solutions to world energy storage leaders thanks to its comprehensive design experience and end-to-end solution capabilities.

Desay Battery, a rising star in the energy storage sector, has emerged as a standout player by pioneering proactive safety innovations that not only protect assets but also enhance the ...

Recognizing that energy storage safety requires systemic collaboration, Desay Battery brought together industry experts at the event to explore the future of storage technologies, value ...
