

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative ...

On behalf of the entire 100 Resilient Cities team, I want to congratulate the city of Quito, Mayor Mr. Mauricio Rodas, and Chief Resilience Officer David Jacome, on the release of the Resilient Quito, a ...

From battery energy storage systems (BESS) and solar-plus-storage setups to cutting-edge hydrogen fuel cells and vehicle-to-grid (V2G) capabilities, this eBook outlines the technologies ...

EnerCyclX aims to revolutionize the energy landscape in Ecuador by providing state-of-the-art energy storage systems designed to meet the growing demand for sustainable and reliable ...

Many island nations impacted by hurricanes are now planning to scale up deployment of microgrids, renewable energy, and storage systems to support resilience of the power system during future ...

The results of this analysis were presented to the Minister of Energy of Ecuador, the Ambassador of Korea in Quito, top executives of electric companies, and academic institutions.

This paper presents a novel capacity expansion planning framework that simultaneously optimizes investments in energy storage, generation, and transmission, determining their optimal ...

In this study, we investigated urban growth, its intersection with hazards, and the availability of greenspace for disaster risk reduction (DRR) in the city of Quito, Ecuador, which ...

Ecuador deploys an adaptive stratified storage architecture to stabilize its grid against 65% seasonal solar variance. This innovative solution enhances energy security by intelligently ...

Discover how Huijue Group's innovative on-site energy storage solutions can help Ecuador address its electricity crisis caused by severe drought and hydroelectric challenges.
