

Finn Peacock, ex-CSIRO & Founder of SolarQuotes provides an independent review on buying solar and how to choose a solar panel installer.

Finn Peacock is the author of The Good Solar Guide (4.66 avg rating, 65 ratings, 7 reviews), An Idiot's Guide to the PID Algorithm (0.0 avg rating, 0 rat...

2019-2024: I put my head down and bum up and steadily grow the SolarQuotes website, relentlessly focused on making it easy, low-risk and - dare-I-say, fun - for Australians buying solar panels, solar ...

For solar installers - Finn started one of the first solar-specific review databases in 2010 (against the advice of his lawyers!) which has since collected over 93,000 reviews from consumers.

The Good Solar Guide: 7 steps to tiny bills for Australian homeowners. Follow the seven simple (ish) steps in my book and I guarantee you'll be rewarded with a great value solar power system that will ...

I'm trying to restore the balance by helping serious solar buyers find serious solar electricians. If you avoid the 7 solar mistakes in this article, you'll be well on your way to finding a top ...

The founder of Solar Quotes, author of The Good Solar Guide, and electrical engineer with expertise in rooftops also answered general questions all about solar power and batteries.

This is a must visit for anyone considering solar as it provides all the information you need to understand what is involved, what to be aware of and extensive reviews and recommendations on the hardware ...

The Good Solar Guide demystifies the solar buying process in Australia showing you how many panels you need, which panel brands to buy, which to avoid, and how to find a great installer.

I had used MJJ solar for my solar panels, recommended by Finn Peacock in 2019, so it seemed appropriate to ask them to quote for a battery. They were quick and responsive, but I did think I ...
