

Who owns the global PV inverter market?

The top 10 PV inverter vendors, led by Chinese giants Huawei and Sungrow, controlled 81% of the global market. Huawei and Sungrow alone captured over 50% of the global share, thanks largely to their popular utility-scale inverters, reports the market analyst.

What is the global solar PV inverter market like in 2023?

Global solar PV inverter shipments grew by 56% in 2023 to 536 GWac, with China accounting for half of all shipments as the country's solar demand doubled in 2023, according to the latest analysis by Wood Mackenzie. The top 10 PV inverter vendors, led by Chinese giants Huawei and Sungrow, controlled 81% of the global market.

Where did global inverter shipments grow in 2024?

Total global inverter shipments reached 589 GW (AC) in 2024, up 10% from 2023. Growth was strongest in the Asia-Pacific region and the Middle East, while shipments dropped by a sharp double-digit percentage in Europe and the United States, according to Wood Mackenzie.

Which PV inverter vendors consolidated the market in 2024?

Joseph Shangraw, research associate at Wood Mackenzie, said: "Both vendors consolidated the market and achieved their highest ever market shares in 2024. Huawei delivered 176 GWac of PV inverters and extended its global lead with strong performances in China, Europe, Latin America and Africa.

Explore the top PV module suppliers based on shipment volume from 2022 onwards. Discover the leading players shaping the solar industry landscape.

The global shipments of PV inverters increased by 10% to 589 gigawatts alternating current (GWac) in 2024, according to Wood Mackenzie.

The global energy landscape saw a significant shift in 2023, marked by a 56% increase in solar photovoltaic (PV) inverter shipments, to reach 536 GWac. China, a powerhouse in solar energy, accounted for half of ...

Read Sungrow Holds the Global No. 1 Position in PV Inverter Shipments for 2023 to learn about the latest renewable energy updates from Sungrow.

Sungrow tops 2023 global PV inverter shipment rankings, driven by increased R& D investments and pioneering 2000V inverters. With six global R& D centers, Sungrow supports renewable energy ...

Global PV inverter shipments grew by 10% to 589 gigawatts alternating current (GWac) in 2024. Asia Pacific, led by China, accounted for nearly all global growth, while the US and Europe declined. In total, ...

In 2024, global solar PV inverter shipments reached 589 gigawatts alternating current.

According to Wood Mackenzie's "Global Solar Inverter and Module-Level Power Electronics Market Share 2024" report, the top 10 global PV inverter vendors captured 81% of the market. China led the ...

Chinese companies made up nine of the 10 largest global inverter suppliers in 2024, with total inverter shipments reaching 589 GW (AC), according to Wood Mackenzie.

2024 Top 20 Global Photovoltaic Inverter Brands Revealed by PVBL. PVTIME - Renewable energy capacity additions reached a significant milestone in 2023, with an increase of almost 50% to nearly 510GW, mainly ...
