

The publicly owned utility company in Guyana, Guyana Power and Light (GPL) has launched a tender seeking bidders for the construction of 15 MW utility scale ground-mounted solar ...

Summary: The Guyana 100MW/200MW electrochemical energy storage project represents a transformative step in modernizing the country's power infrastructure. This article explores the ...

The state-owned Guyana Energy Agency has kicked off a tender for the transportation, installation and commissioning of solar systems with accompanying battery energy storage systems ...

(single container) up to MW/MWh (combining multiple containers). The containerised energy storage system allows fast installation, safe operation and controlled environmental conditions. Our ...

The project will be an immediate boost to the reliability of Guyana's electricity system and will support near term integration of renewables into the grid. The order was booked with ...

The Wales Gas-to-Energy (GtE) project contractor, LNDCH4 Guyana, has announced the arrival of the Backup Battery Storage System (BESS) which it says forms a critical part of the power ...

See full statement from LNDCH4 Guyana LNDCH4 Guyana is pleased to announce the arrival of the Backup Battery Storage System (BESS) which landed at the John Fernandes wharf ...

LNDCH4 Guyana on Friday announced the arrival of the Backup Energy Storage System (BESS) to support the country's gas-to-energy project.

LNDCH4, the U.S. joint venture building an integrated natural gas processing facility at Wales, announced on Friday the arrival of a 30-megawatt backup battery energy storage system ...

With increasing climate challenges and growing energy demands, Guyana is turning to emergency energy storage systems to ensure grid stability and disaster preparedness. This article explores ...
