

What is Hongqiao's energy consumption pattern?

With the recent launching of the green aluminum innovation industrial park powered by clean hydroelectricity in Yunnan Province, Hongqiao has now formed an energy consumption pattern highlighting both coal power and hydropower.

Who is China Hongqiao?

China Hongqiao is one of the world's largest aluminum producers. It was listed on the Main Board of the Hong Kong Stock Exchange in 2011 and it was included as constituent stock by Heng Seng Index Co., Ltd. in 2022. By the end of 2022, its total assets reached RMB 200.34 billion and the number of its employees exceeded 40,000.

What makes China Hongqiao unique?

China Hongqiao utilizes large prebaked anode cells in its primary aluminum production, the current strength of which exceeds 400kA. In December 2014, it put into operation the world's first extra-large prebaked anode cell with a current strength of 600kA. The highly advanced technology is at the forefront of the industry from many perspectives.

What makes Hongqiao a good company?

Hongqiao is dedicated to providing a healthy, safe and comfortable working environment and diverse opportunities. China Hongqiao Group Co., Ltd. was founded in Cayman Islands and listed on the main board of Hong Kong Stock Exchange in 2011. By the end of 2018, it has a total assets of 176.7 billion yuan and more than 40000 employees.

1 Shanghai Hongqiao Station (photo credit: Xinhua/Niu Yixin) As of Sunday, the world's largest stand alone integrated photovoltaic project was pumping out power into the grid.

Zhejiang Changxing Hongqiao (China Power Construction) Photovoltaic solar farm is an operating solar photovoltaic (PV) farm in Hongqiao Town, Changxing, Huzhou, Zhejiang, China.

The project will use the company's signature products including high-efficiency crystalline silicon photovoltaic generation units and smart energy management systems, to build an office park that ...

HPI Changxing Hongqiao Solar PV Park is a 30MW solar PV power project. It is located in Zhejiang, China. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the ...

Hongqiao Railway Station Power Plant (Solar) The Hongqiao Railway Station plant is a Solar power plant located in ?? China. Hongqiao Railway Station has a peak capacity of 6.68 MW which is ...

Hongqiao has been adjusting to a more sustainable energy structure, increasingly relying on solar energy and hydropower. With the recent launching of the green aluminum innovation industrial park ...

We are proud to announce that China Hongqiao Group has successfully connected 650MW of its Yuguang Complementary Photovoltaic Power Generation Project to the grid in Zhanhua District, ...

To maximize installed capacity and power generation, the project adopted ground-mounted installation at the optimal tilt angle. This method ensures maximum absorption of solar radiation, significantly ...

Landleaf Tech announces the successful launch of its pioneering PV power generation system at the Landsea Green Center (LGC), located in the Hongqiao International Central Business ...
