

Is it easy to find a job in new energy and energy storage

Is solar energy a good employer?

Among all renewable sources, solar energy remains the top employer, now supporting around 7.1 million jobs worldwide. According to IRENA's annual review, the solar industry remains the largest employer in renewables, accounting for more than 4.9 million jobs globally.

What makes the energy storage industry so interesting?

The energy storage industry is still fairly young compared to others like wind or solar. This means it's rapidly growing, changing and innovating (part of what makes working in the industry so interesting).

What makes field a great energy storage company?

The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet. They're absolutely essential to the Field business, enabling us to do the work we do.

Why do energy storage companies need a strong finance team?

Regardless of which sector they're working in, businesses need strong finance, legal and people teams. The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet.
