

Large capacity solar container outdoor power with screen display

Our foldable solar containers combine advanced photovoltaic technology with modular container design, delivering rapid-deployment, off-grid renewable energy with industry-leading efficiency.

Modular, solar-powered shipping-container systems for remote living and businesses. Complete off-grid power solutions built by licensed electricians at Danger Electric.

A Mobile Solar Container is a self-contained solar power unit housed within a transportable container. Designed for mobility, it offers rapid deployment of renewable energy solutions in remote or ...

SolaraBox Mobile Solar Container brings green energy wherever you need it. The integrated solar system delivers 400-670 kWh of energy daily. Thanks to foldable solar arrays, the container is ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

SOLAR PRO.
