

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

Where can I buy sea cans in Canada?

Our shipping container yard carries the largest selection and supply of sea cans in Canada. This allows us to offer every container size and type available on the market at competitive prices in the Ottawa region. Specialized units are also available including flat racks, open tops, double door, refrigerated containers, open side, and many more.

What is a "one-trip" container?

The term "one-trip" container refers to any new shipping container which was manufactured overseas, mainly in Asia, and makes one trip from its factory to its destination city, in our case, any ATS location. Because shipping containers are not manufactured in North America, the container is as "new" as a shipping container gets.

What is reusable packaging for solar modules & trackers?

Reusable Packaging for Solar Modules, Trackers & BOS Components. PV pallet builds reusable, purpose-built packaging for solar modules, trackers, and BOS components. Our solar module pallets and collapsible bulk bins are engineered for real jobsite conditions--reducing waste, cutting breakage, and improving logistics from transport to installation.

PV pallet designs reusable pallets, solar module packaging, and BOS bulk containers for utility-scale solar projects. Reduce waste, cut breakage, and improve jobsite efficiency.
