

Outdoor cabinets along the Belt and Road Initiative IP54

Why is IP54 a good rating?

It will give a good level of protection from airborne dust and splashing rain. IP54 allows some ingress of water, subjectively defined as 'limited'. This rating is more appropriate for equipment likely to be sensitive to water, or where rain is likely to be often strongly wind-blown at a variety of angles.

What are the most common IP ratings for outdoor equipment enclosures?

The following are the most common IP ratings for outdoor equipment enclosures. Equipment that has been designed hardened for outdoor use will perform well in an enclosure rated to IP54. It will give a good level of protection from airborne dust and splashing rain. IP54 allows some ingress of water, subjectively defined as 'limited'.
