

Social media is full of angry complaints about shady solar panel installers. Odds are you've even encountered one of these high-pressure salespeople at your own home.

Over the last decade, more Americans have been opting for residential solar power as a way to lower their utility bills. But as this market has expanded, we've seen an uptick in complaints about fraudsters that are preying ...

The German solar industry faces a recurring scam in which fraudsters, using false identities, order solar modules and then vanish without paying for them. The scam primarily affects wholesalers.

Every dollar funneled into a scam is a dollar not building a real wind farm or electrifying an off-grid village. So how do we protect ourselves and each other?

The U.S. Court of Appeals for the Third Circuit ruled that claims from an elderly woman purportedly scammed out of almost \$100,000 by a solar panel company would be dismissed, due to the...

But a study recently released by the Fair Financial Services Project at Texas A&M University reveals that a growing statewide interest in residential solar panels could be generating a wave of...

Real-World Case: In March 2025, Phoenix homeowners lost \$4.8 million through a "solar co-op" program that never installed panels. The operation used cloned websites of legitimate contractors.

Texas lawmakers are considering cracking down on a growing problem of scams and fraud related to solar panels.

Everything you need to know to avoid a solar panel scam and what to do if you feel you've been a victim of predatory solar companies.

But a study recently released by the Fair Financial Services ...

Junkscience publisher Steve Milloy discusses the EPA canceling a Biden-era solar program and reacts to a judge dismissing a Charleston, S.C. lawsuit agai...
