

# Ranking of domestic distributed photovoltaic panels

The Solar Market Insight Report included a ranking of the top states across the country based on the total amount of solar electric capacity installed and in operation as of the end of the first ...

Photovoltaic (PV) solar accounted for 58% of all new electricity-generating capacity additions through the third quarter of 2025, remaining the dominant form of new electricity-generating ...

In Wood Mackenzie's quarterly US Distributed Solar Leaderboard and US Distributed Solar-plus-storage Leaderboard, both available via the US Distributed Solar Service, we rank the top ...

Find out how much of the U.S. solar fleet is made up of small, distributed sources that help communities build local wealth in 2024.

We are pleased to announce the release of the latest edition of Berkeley Lab's Tracking the Sun annual report, describing trends for distributed solar photovoltaic (PV) systems in the United ...

Annual and cumulative solar values assume that China's NEA reports distributed PV in dc terms and utility-scale PV in ac terms. The NEA reported 159 GW of utility -scale PV and 118 GW ...

Discover all statistics and data on U.S. residential solar photovoltaics now on statista !

In Q3 2025, the residential segment installed 1,088 MWdc of solar capacity, declining 4% year-over-year and quarter-over-quarter. Despite an industry rush to bring projects online this year to ...

The map below from the ILSR report illustrates the saturation of each state's distributed solar market, relative to population, at the end of 2021. For the purposes of the map, community ...
