

Our outdoor cabinets are pre-assembled for quick deployment and can operate reliably under wide temperature ranges. They ensure stable energy storage performance in challenging climates, ...

Explore our top-of-the-line Outdoor Cabinet Energy Storage Systems, designed to provide robust and reliable energy solutions for all your outdoor needs. Our cutting-edge technology ensures maximum ...

BOSS Cabinets are rated to the NEMA 3-R Certification for indoor and outdoor installations. They include a corrosion-resistant fan that helps prevent the outdoor temperature from impacting the ...

With flexible configuration options and support for PV integration, it provides adaptable energy storage that easily scales to meet specific requirements. Designed with air or liquid cooling, it ensures ...

The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh, ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

The project deploys 1 unit of 125kW/258kWh energy storage cabinet paired with 1 unit of 125kW PCS (Power Conversion System). The PCS enables high-efficiency bidirectional power ...

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

261kWh rated energy capacity with 125kW rated power packed into a space-saving 1.3m<sup>3</sup> footprint, maximizing energy storage while minimizing floor space requirements for commercial installations.
