

Saft, a subsidiary of TotalEnergies, has extended its energy storage system offering with the launch of its latest innovation: the Intensium Flex (I-Flex) battery storage container.

Jacksonville, FL, United States [10 September 2024] - Saft, a subsidiary of TotalEnergies, has commissioned a new line at its Jacksonville factory in Florida to produce the ...

Intensium®; Flex is Saft's flexible and ready-to-install containerized battery building block, enabling optimized energy storage systems (ESS) for any configuration, any operation and any location.

It is factory-assembled, tested and certified ready for delivery to site as a plug and play energy storage solution that ensures a best-in-class safety solution, in line with future NFPA 8551 ...

For more than a decade, Saft has been providing complete storage solutions up to hundreds of MWs that integrate a Saft lithium-ion battery system with power-conversion devices as well as power ...

Saft, a subsidiary of TotalEnergies, has extended its energy storage system (ESS) offering with the launch of its latest innovation: the Intensium Flex (I-Flex) battery storage container.

May 07 2025, Munich - Saft, a subsidiary of TotalEnergies, has extended its energy storage system (ESS) offering with the launch of its latest innovation: the Intensium®; Flex (I-Flex) battery storage ...

Saft, has extended its energy storage system (ESS) offering with the launch of its latest innovation: the Intensium®; Flex (I-Flex) battery storage container. It provides a compact building block rated at 3.4, ...

The Intensium®; Max 20 High Energy is Saft's unmanned and ready to install Energy Storage System (ESS) in a 20-foot container, enabling utility-scale storage solutions for grids, renewables and ...
