

SL5000/SL6000 series wind turbine adopts mature and reliable double-fed technology and compact drive train; based on SL3000 offshore experience, this series wind turbine has also applied many ...

China has made remarkable achievements in offshore wind power technology, especially in the development of the SL5000 wind turbine. This giant wind turbine is not only large in scale, but ...

There are no power data deposited for this turbine. The wind turbine SL5000/128 is a production of Sinovel Wind Group Co., Ltd., a manufacturer from China. The rated power of Sinovel SL5000/128 is ...

Create an inquiry and we will put you in touch with relevant providers.

SL5000/SL6000 is a new platform for large megawatt intelligent offshore wind turbines developed by Huarui Wind Electric for wind resources and climate characteristics in coastal areas of China.

The horizontal-axis wind power system captures wind energy mainly through its unique design, which includes blades and a generator. The blades are the key components of the wind turbine, designed ...

TGS 4C | 4C Offshore | Specification of Offshore Wind Turbine SL5000/155, Sinovel, which includes Operating Data, Rotor, Power Statistics, Gearbox, Dimensions, and Nacelle.

Product page Rated power: 5,000 kW Rotor diameter: 128 m Available model Wind class: IEC I Offshore model: yes Swept area: 12,868 m<sup>2</sup>; Specific area: 2.58 m<sup>2</sup>/kW Number of blades: 3 ...
