Find many great new & used options and get the best deals for Siemens SP75 Solar Panel. 75 Watt at the best online prices at eBay! Free shipping for many products!

SP Series, 65 to 140 Watts, Siemens most popular modules, provide a medium range power density. SM Series, 6 to 110 Watts, provide the highest power density and have the longest service record.

****Price:**** Given its high power output and efficiency, the price of the Siemens SP75 is generally on the higher end of the market. It may not be the best option for those with a smaller solar installation budget.

Maximize solar plant efficiency and reliability with Siemens' cutting-edge inverter technology.
