

Manufacturing high-quality solar cable assemblies for efficiency, durability, and compliance. Trusted by 1,000+ customers worldwide. Custom & pre-configured solutions for all solar needs.

Power cables and control harnesses for solar inverters, optimizers, and power conditioning equipment. Communication cables for solar monitoring systems, data acquisition, and remote management ...

We design and manufacture solar wire harnesses for photovoltaic modules, inverters, convergence boxes, and energy storage systems to meet the stringent requirements of current carrying, ...

Our Bran-Nex solutions are designed to optimize solar power distribution by consolidating multiple connections into a single, efficient pathway. This reduces wiring complexity, minimizes installation ...

As a manufacturing and solutions-driven company, Leadergroup has supported some of the world's largest and most challenging solar power plants. From consulting and design, construction to ...

We offer a range of cable sizes and specifications to meet the diverse needs of various systems, including connections between power inverters, batteries, charge controllers, and solar panels.

Custom solar wire harnesses for PV panels, inverters & energy storage. UV-resistant, UL certified assemblies and \$100 off your first order!

We provide wire harnesses and cable assemblies that are designed to withstand the outdoor conditions, high UV exposure, high voltage, and high heat common in solar energy applications.

Our PCB is your solar wire harness manufacturer, with over 15 years of experience building custom harnesses engineered for harsh outdoor conditions and long system lifetimes.

Custom Power Solutions: From specialized DC power cables, we manufacture solutions that support inverters, trackers, and energy storage systems while meeting required voltage and amperage needs.
