

What is the solar uncommon dialogue?

The solar dialogue and agreement have already spawned a new Uncommon Dialogue to address challenges facing U.S. electricity transmission development for solar, wind and other new clean energy projects. Learn more about the Solar Uncommon Dialogue and how to participate in a working group.

Why is local engagement important for solar & storage projects?

As the solar and storage industry grows, it's critical that we prioritize local engagement," said Abigail Ross Hopper, president and CEO of the Solar Energy Industries Association (SEIA). "We are thrilled to join our partners in this landmark agreement to help us quickly, responsibly, and equitably deploy solar and storage projects.

Should solar energy be used in remote regions?

"In remote regions, the choice of solar energy has a universal consensus," said Vin&#237;cius Oliveira, project leader at the Institute for Energy and the Environment (Iema), a non-profit organisation promoting public policies on energy and transport.

What is the solar energy initiative?

This initiative is co-convened by Stanford University's Woods Institute for the Environment, The Nature Conservancy, the Solar Energy Industries Association, and SI2. Land-use conflicts over the siting and permitting of proposed large-scale solar facilities have increased as demand for solar energy has increased.

Small-scale, low-cost solar is filling gaps in the grid that have long troubled Amazon nations, supporting health, connectivity and environmental protection in remote areas

Read more stories from CATCH. "It was no life," she tells Dialogue Earth. But for nearly a decade now, a network of solar microgrids - small-scale electrical systems capable of generating ...

Signatories to the Solar Uncommon Dialogue agreement have committed to improving large-scale solar development based on the "3Cs": climate, conservation and community. Climate ...

Record your answers to the dialogue (when it's your turn). Then replay your recording and compare each recorded part to the original.

The Solar Uncommon Dialogue agreement stresses that the development of large solar projects must be transparent, equitable and efficient and acknowledges that this will require many trade-offs.

The solar dialogue and agreement have already spawned a new Uncommon Dialogue to address challenges facing U.S. electricity transmission development for solar, wind and other new ...

In response, the Solar Energy Industries Association (SEIA), Stanford University and The Nature Conservancy launched the Solar Uncommon Dialogue to minimize land use conflicts and ...

Renewable energy is an important and modern topic often discussed in schools, colleges, interviews, and group discussions. Talking about solar energy, wind power, hydroelectricity, and other ...

Solar farm siting disputes highlight the need for community dialogue on land use, biodiversity, and benefit sharing. Stakeholder engagement and equitable policies can resolve ...

The U.S. Department of Energy is investing in the Solar and Storage Industries Institute to support the Solar Uncommon Dialogue, a stakeholder-driven initiative to improve large-scale solar ...
