

The U.S. Sunlight Corp. Solar Controller(TM) for All-Purpose Solar Ventilator helps you take control of your solar-powered attic fan and optimize operation for maximum performance in all weather conditions ...

The Breeze Mate® Solar Ventilation System is designed as a two-part control system, consisting of a remote interface master controller (MC-10A) along with individual fan controllers (CS-11A) that are ...

The Breeze Mate offers temperature and humidity control for your solar attic fan and helps prevent attic depressurization. The Breeze Mate control system wirelessly controls up to 10 solar fans, either ...

Compatible with any US Sunlight solar attic fan or All Purpose Ventilator and the only Solar Controller to work effectively with the 16 watt and larger solar attic fans

Built with advanced technology, the Dual Power Solar Controller allows Swifter Fans to harness renewable energy while maintaining reliable performance. It intelligently balances power input from ...

When sunlight strikes silicon cells within your panel, electrons get excited and start flowing, creating electricity that spins your fan blades. This elegant process happens silently, cleanly, ...

Solar power fan perfect for 6x6 ft spaces (add more for larger spaces). Pull in fresh air, push out heat/stale odors, and slash dust--your flock gets a healthier, cooler home.

The Breeze Mate® Solar Ventilation System is designed as a two-part control ...

When solar power is insufficient, the intelligent power adapter automatically supplements the battery, ensuring the fan operates 24/7. It also comes with a wireless remote control, allowing users to ...

Includes two monocrystalline solar panels, three 172mm aluminum fans, wiring harnesses, a 12V regulator along with a on/off switch, mounting hardware (bolts/nuts and zip ties), and grills.

Addition of the Solar Controller with Dual Mode Technology will enable your U.S. Sunlight Solar Powered Attic Fan to run after sunset, or when there is no light available from the sun.
