

Southeast Asian energy storage battery brands

Which battery brands dominate the Southeast Asia battery market?

The Southeast Asia battery market is moderately concentrated. CATL, LG Energy Solution, Samsung SDI, and BYD together command roughly 55% of regional lithium-ion capacity, while Clarios, GS Yuasa, and Exide dominate lead-acid aftermarket channels.

How big is the Southeast Asia battery market?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The Southeast Asia Battery Market size is estimated at USD 7.07 billion in 2026, and is expected to reach USD 11.20 billion by 2031, at a CAGR of 9.63% during the forecast period (2026-2031).

Which countries are leading the Southeast Asia battery market in 2025?

Thailand led the Southeast Asia battery market with 28.3% revenue in 2025, drawing on a deep automotive cluster and Eastern Economic Corridor incentives that streamline permitting and fund shared infrastructure. Clarios and GS Yuasa upgraded Rayong plants in 2024, and Panasonic doubled capacity to support hybrid models from Toyota and Honda.

What is the market size of automotive traction batteries in Southeast Asia?

By application, automotive traction batteries held 57.5% share of the Southeast Asia battery market size in 2025 and are accelerating at a 15.7% CAGR to 2031, reflecting generous EV incentives in Indonesia and Thailand.

Discover the current state of energy storage companies in Asia, learn about buying and selling energy storage projects, and find financing options on PF Nexus.

Southeast Asia Battery Energy Storage Systems Market Overview The Southeast Asia Battery Energy Storage Systems market is valued at USD 3 billion, based on a five-year historical analysis. The ...

ASEAN Energy Storage Market Size & Share Analysis - Growth Trends & Forecasts (2025 - 2030) The ASEAN energy storage market is segmented by type (pumped-hydro storage, battery ...

China's leading BESS company, dedicated to developing the best battery energy storage system and improve the efficiency of renewable energy storage.

As the region accelerates its transition to electric mobility, energy storage systems are becoming critical components. This analysis profiles the Top 10 Companies revolutionizing ...

LG Energy Solution will keep global battery cell production at around 300GWh in 2026, while increasing its proportion of supply for energy storage system (ESS) applications.

The Southeast Asia Battery Market worth USD 7.07 billion in 2026 is growing at a CAGR of 9.63% to reach

Southeast Asian energy storage battery brands

USD 11.20 billion by 2031. LG Energy Solution, Panasonic Holdings Corp., ...

Summary: Southeast Asia has emerged as a hub for solar energy storage solutions, with lithium battery manufacturers driving innovation in renewable energy systems. This article explores the region's ...

The Southeast Asia battery sector is rapidly evolving, driven by surging demand for electric vehicles, renewable energy storage, and portable electronics. As the region accelerates its adoption ...

But they also have a brilliant energy storage system called the "Powerpack," Unlike systems from brand, it uses lithium-ion batteries which makes this system unique.
