

Three wind power and energy storage projects in Bulgaria

Bulgaria's Ministry of Energy has officially announced the final results of the country's first renewable energy auction. In this procurement event, the Bulgarian government allocated a total of ...

The newly announced projects will help achieve this, providing an estimated 3 gigawatts of renewable energy and 1.2 gigawatts of energy storage. The projects will focus on solar and wind power, as well ...

Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion leva (\$675 million) under its EU-funded procurement exercise named RESTORE.

These developments come on the heels of Bulgaria's first renewable energy auction held in late 2024, where more than 3 GW of generation and 1.176 GW of storage capacity were secured.

Approximately 200 million EUR investments to encourage the combination of new renewables with local electricity storage facilities (totaling around 200 MW); Transformation of AES Galabovo into a large ...

Under two calls in Bulgaria, developers of 249 projects will receive EUR 268 million in total state aid. The programs are for renewable electricity plants with energy storage units.

The Ministry of Energy in Bulgaria has concluded the country's maiden renewable energy auction, selecting over 3 GW of new generation capacity, along with 1.176 GW of energy ...

The national energy strategy (2023 draft) envisages that by 2050 Bulgaria will have 11.8 GW of PV, 5 GW of onshore wind, 3.3 GW of offshore wind, and 2.3 GW of energy storage capacities in operation.

storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants in mind, ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into ...
