

Our diverse selection includes everything from custom-designed pole-mounted transformers to pad-mounted transformers, catering to various applications and industries while ensuring uninterrupted ...

The company specializes in high-end electrical equipment including smart transformers, prefabricated substations, and switchgears. These products are widely used in offshore and onshore renewable ...

Trench is a hidden champion in the energy sector and is one of the global leaders of high voltage component manufacturers: Trench & HSP Bushings play a pivotal role in the energy transition by ...

From high-voltage power transformers for transmission grids to distribution transformers for industrial and renewable applications, Siemens Energy delivers reliable, efficient, and future-ready solutions ...

GE ELECTRIC specializes in the production of medium and high voltage transformers, voltage stabilizers, converters, UPS and other electrical equipment.

Specializing in high-voltage, oil-immersed, and dry-type transformers for nuclear, renewable energy, and EV charging. IEC & IEEE certified.

Custom energy infrastructure, delivered faster. We've delivered more than 3.5 GW of transformers, switchboards, and data centers built in Houston, TX and Long Beach, CA.

Hitachi Energy offers a complete range of power transformers and related components and parts. We have delivered more than 20,000 power transformers (over 2,600 GVA), including over twenty 800 ...
